NASHVILLE, Tenn., May 27, 2021 /PRNewswire/ --

First Quarter Fiscal 2022 Financial Summary

- Net sales increased 93% from last year to \$539 million
- Net sales increased 9% over the first quarter two years ago with stores open about 90% of days
- GAAP operating income increased 71% over first quarter two years ago
- Non-GAAP operating income increased 125% over first quarter two years ago
- Comparable direct sales increased 43%
- Inventory down 23%
- GAAP EPS from continuing operations was \$0.60 vs. (\$9.54) last year and \$0.36 two years ago
- Non-GAAP EPS from continuing operations was \$0.79¹ vs. (\$3.65) last year and \$0.33 two years ago

Genesco Inc. (NYSE: GCO) today reported GAAP earnings from continuing operations per diluted share of \$0.60 for the three months ended May 1, 2021, compared to a loss from continuing operations per diluted share of (\$9.54) in the first quarter last year and earnings from continuing operations of \$0.36 per diluted share two years ago. Adjusted for the Excluded Items in all periods, the Company reported first quarter earnings from continuing operations per diluted share of \$0.79, compared to a loss from continuing operations per diluted share of (\$3.65) last year and earnings from continuing operations of \$0.33 per diluted share two years ago.

Mimi E. Vaughn, Genesco board chair, president and chief executive officer, said, "Fiscal 2022 is off to a very strong start with a first quarter that meaningfully exceeded our expectations. Our momentum has been building each quarter following the disruption from COVID-19 last year and trends accelerated as the first quarter progressed. Our outperformance was driven by better than anticipated results at every division, led by record first quarter revenue and profitability at Journeys. The momentum from the first quarter has continued into May. Even as the pandemic continued to impact our business to varying degrees, our exceptional performance reflects the strong competitive positions of our retail and branded concepts and the traction we are experiencing with the footwear focused strategy we embarked on a couple of years ago, combined with a boost from U.S. government stimulus and pent-up demand as the economy reopened."

¹Excludes fees related to the shareholder activist, retail store asset impairments and expenses related to the new headquarters building, net of tax effect in the first quarter of Fiscal 2022 ("Excluded Items"). A reconciliation of earnings/loss and earnings/loss per share from continuing operations in accordance with U.S. Generally Accepted Accounting Principles ("GAAP") with the adjusted earnings/loss and earnings/loss per share numbers is set forth on Schedule B to this press release. The Company believes that disclosure of earnings/loss and earnings/loss per share from continuing operations adjusted for the items not reflected in the previously announced expectations will be meaningful to investors, especially in light of the impact of such items on the results.

"Our multi-year performance leading up to the outbreak of COVID-19, which featured 11 consecutive quarters of positive comparable sales growth for our footwear businesses, and our results during the pandemic, put us in a position of strength. Our organization has done an outstanding job capitalizing on the recent opportunities to positively transform our business at a faster pace, including developing a more advanced, more profitable digital channel, reshaping the cost structure of our store fleet, and strengthening our consumer connections. With a strong balance sheet, we are well positioned to further invest in growth, and create even greater value for our shareholders."

Thomas A. George, Genesco interim chief financial officer, commented, "We were very pleased that the first quarter continued the sequential improvement of our operating results since the onset of the pandemic, as our top and bottom lines far outpaced last year's levels and exceeded first quarter fiscal 2020 two years ago. Record first quarter digital revenue combined with improving store results fueled significant expense leverage, leading to higher operating income and first quarter adjusted EPS of \$0.79 compared to \$0.33 in fiscal 2020."

Store Re-Opening Update

As of May 27, 2021, the Company is operating in 96% of its locations, including approximately 1,100 Journeys, 160 Johnston & Murphy and 123 Schuh locations.

First Quarter Review

Net sales for the first quarter of Fiscal 2022 increased 93% to \$539 million from \$279 million in the first quarter of Fiscal 2021. This sales increase was driven by increased store sales resulting from store closures in the back half of the first quarter last year due to the COVID-19 pandemic, digital comp growth of 43% and increased wholesale sales. Stores were open about 90% of possible days in the first quarter this year as compared to 50% in the first quarter last year. As a result of store closures in response to the COVID-19 pandemic, the Company has not included first quarter comparable sales for this year or last year, except for comparable direct sales, as it feels that overall sales is a more meaningful metric for these periods. Comparable direct sales for the first quarter of Fiscal 2022 were 43% as compared to 64% for the first quarter of Fiscal 2021.

Overall sales were up 123% at Journeys, up 46% at Schuh, up 26% at Johnston & Murphy and up 84% at Licensed Brands. Overall sales were up 9% compared to the first quarter two years ago, with Journeys sales up 16% and Licensed Brands sales up 122%, partially offset by an 11% decrease in Schuh sales and a 35% decrease in Johnston & Murphy sales.

First quarter gross margin this year was 47.8%, up 480 basis points, compared with 43.0% last year and down 160 basis points compared with 49.4% in Fiscal 2020. The decrease as a percentage of sales as compared to Fiscal 2020 is due primarily to higher shipping and warehouse expense in our retail businesses as well as the mix of our businesses partially offset by decreased markdowns at Journeys. The higher shipping and warehouse expense in our retail businesses is driven by the increase in penetration of e-commerce as compared to Fiscal 2020.

Adjusted selling and administrative expense for the first quarter this year decreased 2,360 basis points as a percentage of sales compared with last year and decreased 340 basis points compared with Fiscal 2020. Such decrease is due primarily to reduced occupancy expense as well as reduced selling salaries partially offset by increased performance based compensation expense. The reduction in occupancy expense is driven by rent abatement agreements with landlords and government relief programs.

Genesco's GAAP operating income for the first quarter was \$15.5 million, or 2.9% of sales this year, compared with an operating loss of \$(156.0) million, or (55.9)% of sales last year, and an operating income of \$9.1 million, or 1.8% of sales in the first quarter of Fiscal 2020. Adjusted for the Excluded Items in all periods, operating income for the first quarter was \$18.8 million this year compared to an operating loss of \$(69.5) million last year and an operating income of \$8.4 million in the first quarter of Fiscal 2020. Adjusted operating margin was 3.5% of sales in the first quarter of Fiscal 2022, (24.9)% last year and 1.7% in the first quarter of Fiscal 2020.

The effective tax rate for the quarter was 40.1% in Fiscal 2022 compared to 14.1% last year and 30.7% in the first quarter of Fiscal 2020. The adjusted tax rate, reflecting Excluded Items, was 35.7% in Fiscal 2022 compared to 26.8% last year and 31.3% in the first quarter of Fiscal 2020. The higher adjusted tax rate for this year as compared to last year reflects the inability to recognize a tax benefit for certain foreign losses and a higher mix of earnings in jurisdictions where the Company generates taxable income.

GAAP earnings from continuing operations were \$8.9 million in the first quarter of Fiscal 2022, compared to a loss from continuing operations of \$(134.6) million in the first quarter last year and earnings from continuing operations of \$6.5 million in the first quarter of Fiscal 2020. Adjusted for the Excluded Items in all periods, first quarter earnings from continuing operations were \$11.6 million, or \$0.79 per share, in Fiscal 2022, compared to a loss from continuing operations of \$(51.4) million, or (\$3.65) loss per share, last year and earnings from continuing operations of \$5.9 million, or \$0.33 per share, in the first quarter of Fiscal 2020.

Cash, Borrowings and Inventory

Cash and cash equivalents at May 1, 2021, were \$258.0 million, compared with \$238.6 million at May 2, 2020. Total debt at the end of the first quarter of Fiscal 2022 was \$44.2 million compared with \$222.7 million at the end of last year's first quarter reflecting increased borrowings in the first quarter last year as a result of the COVID-19 pandemic. Inventories decreased 23% in the first quarter of Fiscal 2022 on a year-over-year basis and decreased 18% versus the first quarter of Fiscal 2020.

Capital Expenditures and Store Activity

For the first quarter, capital expenditures were \$12 million, related primarily to digital and omnichannel initiatives. Depreciation and amortization was \$11 million. During the quarter, the Company opened one store and closed 17 stores. The Company ended the quarter with 1,444 stores compared with 1,479 stores at the end of the first quarter last year, or a decrease of 2%. Square footage was down 2% on a year-over-year basis.

Share Repurchases

The Company did not repurchase any shares during the first quarter of Fiscal 2022. The Company currently has \$90 million remaining on the \$100 million board authorization from September 2019.

Fiscal 2022 Outlook

Due to the continued uncertainty in the overall economy driven by COVID-19, the Company is not providing guidance at this time.

Safe Harbor Statement

This release contains forward-looking statements, including those regarding the performance outlook for the Company and all other statements not addressing solely historical facts or present conditions. Forward-looking statements are usually identified by or are associated with such words as "intend," "expect," "believe," "anticipate," "should," "optimistic" and similar terminology. Actual results could vary materially from the expectations reflected in these statements. A number of factors could cause differences. These include adjustments to projections reflected in forward-looking statements, including those resulting from the effects of COVID-19 on the Company's business, including COVID-19 case spikes in locations in which the Company operates, additional store closures due to COVID-19 and expected timing for store reopenings, weakness in store and shopping mall traffic, timing of in person back-to-work and back-to-school and sales with respect thereto, expectations regarding the COVID-19 vaccine rollout and acceptance, restrictions on operations imposed by government entities and/or landlords, changes in public safety and health requirements, and limitations on the Company's ability to adequately staff and operate stores. Differences from expectations could also result from store closures and effects on the business as a result of civil disturbances; the level and timing of promotional activity necessary to maintain inventories at appropriate levels; the imposition of tariffs on product imported by the Company or its vendors as well as the ability and costs to move production of products in response to tariffs; the Company's ability to obtain from suppliers products that are in-demand on a timely basis and effectively manage disruptions in product supply or distribution, including disruptions as a result of COVID-19; unfavorable trends in fuel costs, foreign exchange rates, foreign labor and material costs, and other factors affecting the cost of products; the effects of the British decision to exit the European Union and other sources of market weakness in the U.K. and Republic of Ireland; the effectiveness of the Company's omnichannel initiatives; costs associated with changes in minimum wage and overtime requirements; wage pressure in the U.S. and the U.K.; weakness in the consumer economy and retail industry; competition and fashion trends in the Company's markets; risks related to the potential for terrorist events; risks related to public health and safety events; changes in buying patterns by significant wholesale customers; retained liabilities associated with divestitures of businesses including

potential liabilities under leases as the prior tenant or as a guarantor; and changes in the timing of holidays or in the onset of seasonal weather affecting period-to-period sales comparisons. Additional factors that could cause differences from expectations include the ability to renew leases in existing stores and control or lower occupancy costs, and to conduct required remodeling or refurbishment on schedule and at expected expense levels; the Company's ability to realize anticipated cost savings, including rent savings; the Company's ability to achieve expected digital gains and gain market share; deterioration in the performance of individual businesses or of the Company's market value relative to its book value, resulting in impairments of fixed assets, operating lease right of use assets or intangible assets or other adverse financial consequences and the timing and amount of such impairments or other consequences; unexpected changes to the market for the Company's shares or for the retail sector in general; costs and reputational harm as a result of disruptions in the Company's business or information technology systems either by security breaches and incidents or by potential problems associated with the implementation of new or upgraded systems; the Company's ability to realize any anticipated tax benefits; and the cost and outcome of litigation, investigations and environmental matters involving the Company. Additional factors are cited in the "Risk Factors," "Legal Proceedings" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" sections of, and elsewhere in, the Company's SEC filings, copies of which may be obtained from the SEC website, www.sec.gov, or by contacting the investor relations department of Genesco via the Company's website, www.genesco.com. Many of the factors that will determine the outcome of the subject matter of this release are beyond Genesco's ability to control or predict. Genesco undertakes no obligation to release publicly the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Forward-looking statements reflect the expectations of the Company at the time they are made. The Company disclaims any obligation to update such statements.
